## EXPERIENCE

### **Terragon Group, Lagos, Nigeria — Frontend Engineer**

APRIL 2019 - PRESENT

#### *Marketing console*

Worked on the application dashboard with a team of engineers that developed a bulk SMS platform that schedules campaigns to run and do targeted marketing for millions of users.

#### *Sponsored Data platform*

Collaborated with a team of engineers to build a platform that helps users watch videos of links copied without an internet connection, across different mobile devices.

#### *Website Management*

Responsible for the official website of the organization.

### **Terragon Group, Lagos, Nigeria — Frontend Engineer(Intern)**

JANUARY 2019 - March 2019

#### *Sporty Quiz*

Worked on a client facing application that gets web scraped sport data from the internet, makes a quiz from it and allows users to take quizzes in real time.
